

For Immediate Release

EKWILL NEGOTIATES AGREEMENT FOR FUNDING THROUGH SKILLS DEVELOPMENT FUND (SDF)

Toronto, Ontario. May 5, 2022. Ekwill Inc., is a leading National Recruitment Resource and Platform connecting various businesses with a particular strong emphasis on providing the Canadian Construction Building Trades with diversified skilled job candidates and apprentice trainees.

Our mission is to bring a new and exciting approach to recruiting potential job candidates, despite one's social, cultural, gender or economic position in society on behalf of our business clients and give Ekwill access to the opportunities that exist for top-level paying jobs.

Sarah Makhomet, President of Ekwill states: "We want to make Ekwill inclusive and a helpful resource to all the different groups like women, the indigenous population, LGBTQ and minorities who, as potential job candidates, are seeking careers in the Canadian construction building trades but are finding it hard to navigate the waters."

Our company is grateful for the Skills Development Program Funding (SDF) and wish to thank the Ontario Government for the support and access to this valuable means of funding. The SDF Program comes at a crucial stage as the Ontario Construction industry is experiencing a record shortage of Skilled Trades workers and this vital program will help fill this void.

"More than 300,000 jobs are going unfilled every day in Ontario, costing our economy billions in lost productivity and growth" said Monte McNaughton, Minister of Labour, Training and Skills Development. "That's why our government is investing in innovative training programs like this through Ekwill, which will help more people across our province find pathways into rewarding and well-paying careers in construction and building trades".
